Education

B.Sc. Computer Science And IT

2020-2025 | AIMS College

Relevant coursework : Data Structures, Algorithms, Database Management Systems, Software Engineering, Computer Networks, Operating Systems

UI/UX Design Course

Jun 2025-Jul 2025 | Clove IT

Understanding Basic Color Theory (60-30-10 rule), Spacing (4pt Spacing), Typography. Learned core UI/UX design principles: visual hierarchy, typography, color theory, spacing. Learned AI Literacy and it's impact in designing

Projects

Lumino Technologies

Redesigned the website from scratch with a modern, conversion-focused UI and delivered a complete Figma design system for development.

AHUT

Designed a responsive university website from UX research to high-fidelity UI, including the design system and developer-ready Figma handoff.

Experience

WiseAdmit | Product/Web Designer

Aug 2026 - Present

At WiseAdmit, I work as a Product & Web Designer, designing digital experiences across education, AI, and document management. I own end-to-end product design from UX research, user flows, wireframes, and prototyping to high-fidelity UI—across websites, portals, dashboards, and landing pages. I also established and built the product's design system from the ground up, creating a consistent foundation for the WiseAdmit ecosystem while using research-driven design to solve complex user and product problems.

EB Pearls | UI/UX Designer

Sept 2025 - Jun 2026

At EB Pearls, I collaborated with global clients and cross-functional teams, presenting design decisions and aligning stakeholders. I owned end-to-end product design in Figma from user flows and wireframes to high-fidelity UI across SaaS, payments, telehealth, and internal tools, delivering 30–40 screen projects from concept to handoff.

Freelance | Product Designer

Sept 2024 - Sept 2025

Designed web wireframes, prototypes, and user-friendly dashboards/CMS. Prioritized intuitive navigation and organized layouts, enabling non-technical users to track products and manage content effortlessly.
